GPSA Senate Minutes#4
October 12, 2020 | via Zoom | 5:30pm

- 6:00 | Guest Speakers - Dr. Stephen Bischoff, Director, Multicultural Student Services
- 6:15-6:20 | Dialogue with Dr. Bischoff
- 6:20 | Guest Speakers – Dr. Kate Hellmann, Director, International Student and Scholar Services, Scholarly Assistant Professor, Office of International Programs; Cody Tornow, Lead International Student Advisor

[This is where senators should be prepared to ask questions of our guest speaker. They have taken time out to reach out to us and want to hear from you. Having no questions or comments shows that we have no feedback to provide. That is seldom the case! The best way to prepare is to 1) reach out to your constituents: Ask, “What would you want to say to the Director of CHS.” 2) Do some research: Not a lot, but poke around the website and make sure you know a thing or two. 3) Listen actively: If you aren’t actively listening to the guest speaker, are you best serving the student body?]

○ Dr. Stephen Bischoff, Director, Multicultural Student Services
  - Office of Outreach and Education
  - Sandte Stanley: Is there any dedicated place like a club where students of color would meet?
  - Sandte Stanley: Is there little focus in the program on the graduate students with a lack of faculty member of color to speak to graduate students of color about how to navigate academia and tackle issues (e.g., lack of mentorship) facing graduate students of color?
  - Dr. Bischoff: Although it is undergraduate students who are the predominant focus, we want to have a partnership with graduate students. We are working to figure out how to address race, class, and gender issues in our space. We are making an effort to create a sustainable relationship with this organization because students are involved with GPSA to serve and this is a top area of your work. We appreciate that. I think it is so critical to figure out ways to support students and that is what you are working for as well.
  - Sam: The recent executive order targeting critical race theory has encouraged some college and universities to begin rolling back their diversity programs. I would like to know that WSU is not engaging in this sort of practice, and can you state that it won’t be so?
  - Dr. Bischoff: Some institutions and states are countering that. A lot of the executive order stems from a misconception of what the training is and what the training...
goals entail. The executive order focuses more on terminology. WSU will not be following those other universities; we remain committed to diversity and inclusion.

- Dr. Bischoff: I would like to get feedback on what helped each one of you feel more supported in the campus on this journey as a graduate student.
- Reanne: Do students have access to outreach education?
- Dr. Bischoff: Yes

- Dr. Kate Hellmann,
  - International Emergency Fund application
  - Learning Resource Center in our office
  - How you write your representative
  - Make a difference. Submit your comments and let your voice be heard

- Cody Tornow
  - Comment how much that will affect you: Speak Out Against the Proposal to End Duration of Status
  - I-94: As long as you maintain your student status, you are allowed to stay.
  - Email ip.intlservices@wsu.edu, Cody Tornow, or Dr. Kate Hellmann, to make an appointment and be advised on your situation

6:40-6:50 Open Floor

- Breakout Rooms – Discuss goals for working groups.
  - Ahmed Medhat: It is better to have a minimum stipend rather than all students be paid the same. That might address the issue that students might be paid less if we want to have a fair pay. It seems the best approach is minimum stipend.
  - After discussion Senators will have time to voice their responses. It seems acceptable.
  - Demi Deng: Is stipend level determined by individual departments, college, or the school?
  - Anika: The university set the steps and the department is the one that offers you the stipend at a certain step.

- After discussion Senators will have time to voice their responses.

- Housing - Chair: Community Affairs
  - Community – affordable housing, current options/ issues
  - University – WSU grad housing, current options, issues
o Healthcare - Chair: Internal Affairs
   ▪ Community – accessible healthcare
   ▪ University – mental health issues/ access; insurance plan
   ▪ State – affordable and accessible to dependents
     o Mikala: Health care for dependence. Advocate for students who have families

o Stipends - Chair: University Affairs
   ▪ University – minimum stipend level

   o Arian: Coverage of health care and low stipend amount. Students pay for the housing rent although they are abroad.
   o Gurdeep Singh: Graduate students who are teaching classes still get paid less even though they are assigned for more responsibilities.
   o Behnaz: I will share Prosser example with the GPSA including information about transportation
   o James: we need to create a plan for working groups including information about what the health care covers and how to access that.
   o Reanne: I am confused about what we are doing. It sounds like everyone brought up ideas about the issues. Are these ideas the main focus of the working groups?
   o Sam: We are giving the Senate the opportunity to speak to narrow focus on issues and provide feedback for the working groups. It is an opportunity for everyone to have their voices heard. So, we can utilize this information as we move forward.
   o Is the Qualtrics link survey for the college representatives and senators to fill out or share with constituents?
   o Jenn: We are going with both. I like everyone to fill out the application and share it with your departments to work on those issues.

● 6:50 - 7:00 | New Business
   o RSO Spring Application Period
     o Opened until November 10

● 7:00 | Miscellaneous items

  Check-Out Question
  1. Would be nice to sit in the small groups with our departments for a longer period of time.
  2. Add another breakout room to gather more ideas about the GPSA plans. Senators cooperate more on this way.
3. Maybe send links (like surveys) with agenda - helpful for writing up emails to constituents.
4. Longer breakout room times. Also, inclusion of some fun engagement activities
5. More opportunities to engage with senators outside of the college and committee.
6. Polls to gauge interest/ideas/etc.
7. I think we should focus on ways to engage more people within the senate and ensure they get a chance to speak. We started out very well by using the hand raising function and then that kind of died out. The chat is very lively, but it is easy to lose information when there is a lot of back and forth. When we meet in breakout rooms they are for a short period of time and by the time we finish our intros and getting to know who is all in its almost time to leave. Maybe make them larger working times...
8. Maintain open conversations during breakout. But also define some outcomes for breakout rooms.
9. Utilize the chat function more for questions.
10. Polls
11. I cannot think of anything
12. Using Polls- get better idea of where everyone stands
13. Have a way to answer questions possibly get more of a consensus by using excel rows or polls
14. Can we get access to the PPT? I know we get the minutes, but sometimes I think sending a slide or two in my email recaps would be handy. Or am I missing the email where we get access to those?
15. Our break-out rooms are not consistently putting same people in the room. Someone always gets kicked out or get mismatched.
16. Use polls, maybe someone can send an email with links shared in the chat by guest speakers
17. No idea.
18. Polls
19. Allow early submission of questions to guest speaker to allow them to prepare for answering our questions.
20. Create a Discord for instance for Senators to share ideas outside of our bi-weekly meeting
21. Google Doc with links put in the chat- they tend to get lost with the conversation.
22. More breakout rooms for increasing interactions
23. I think the 2-hour time frame is a little tough. If we could structure this so that we do some things asynchronously or include additional breaks or something to that effect, that'd be wonderful. Zoom burn out is real!
24. Making the zoom link embedded within the outlook calendar invite, setting to mute participants upon entry, more detailed minute-taking, asking speakers to
provide a visual to refer to during talks, speedier turn-around of minutes after meetings, overview of objectives of meetings at start, generally more guidance to senators about how they should be communicating with their senators, more communication between senators and their respective college reps.

25. Seems like we need more support in helping people understand what they need to accomplish in the break-out groups

26. More interactions with different people (breakout rooms for people from the same college/ same country/ same year/ same committee...)

27. More polls

28. Use polls/share the general ideas of discussions in break rooms and links used in slides by the agenda

29. Better planning to have questions that will be discussed and links to all documents ahead of time. I still have issues accessing the google docs and the zoom meeting.

30. Maybe we could add some general question/fun moment, i mean a little form of good distraction.

31. You may explore polls/ breakout room

32. Use poll.

33. More polls

34. The utilization of the breakout room is nice b/c it gives us a chance to connect with our specific team member and just to touch base without necessarily having a whole separate Zoom meeting.

35. Less breakout rooms; more polls

36. Consistently provide links that are embedded in the slides via chat.

37. Attach the topics/ Qs during break room discussion period since we failed to the Qs from main room

38. Polls

39. Maybe more breakout rooms

40. We can use more breakout rooms and polls

41. Chat gets lost and utilize polling.

42. Maybe utilize polls

43. More breakout rooms

44. Use polls

45. Polls will be good idea

46. Use polls and more break out rooms to increase interaction with other people.

47. Post a summary of goals and important/relevant info in the chat before sending us to break out rooms (this way we can all still see it in the rooms). I think it would be good to review the break-out room prompts or ask if there are questions prior to sending everyone/allow more time; the breakout rooms have helped, but we lose a lot of time reviewing what we are doing/goal of the discussion, or background info. A brief info/task/goal summary would really help us be more efficient. (Maybe it's similar when you walk into a different room and forget what you went for, but the description is usually quick and
we are trying to process what we are supposed to be doing while moving into a group, and it tends to lead to confusion and lost time)
48. No questions
